Congratulations!

You have reached the remotest Lao PDR province far in the north. Yet the journey up here by bus, boat or plane is an adventure in itself.

You feel the fresh cool mountain climate at 1430 m as relief from the heat of the plains.

You have much fun boating the fast flowing Nam Ou River through its deep canyon.

You hold your breath in mindfulness while trekking through an abundance of lush green virgin forests in this infinite mountain nature. One, two or three day trekking tours from village to village have been established.

You enjoy the colorful hospitality of different local ethnic cultures during village homestay. In the villages many women still wear their traditional costume.

You savor the special taste of Phongsali tea. Discover the 400 year old tea trees at Ban Komaen village and buy some of the best tea on earth.
